

## UPDATED TABLE OF 2007 RANKING

### Leaseurope releases the Ranking of Top European Leasing Companies for 2007

BRUSSELS – 15 December 2008. Leaseurope is pleased to announce the launch of the seventh consecutive Ranking of Top European Leasing Companies. The purpose of the Ranking is to provide a yearly update on new leasing volumes and portfolios of the largest leasing firms in Europe.

These companies are located in 28 different countries and include both EU and non-EU member states. The firms are members of the 46 member associations represented by Leaseurope which in turn represent over 1500 leasing companies. Together, they account for approximately 93% of the entire European leasing market in 2007.

This year, 123 companies participated in this exercise. Of these firms, 99 are parent or stand alone companies (bank related, captive or independent leasing companies) and 24 are classified as subsidiaries. These firms are ranked according to the value of their new contracts in 2007. These figures are shown in the attached tables, on a consolidated basis covering the parent and stand alone companies only.

Parent and stand alone companies in the Ranking reported new leasing volumes of 216 billion €. This represents approximately 64% of all leasing volumes written in Europe in 2007. The top 20 parent and stand alone companies account for 41% of the value of new contracts for the entire European market. According to Leaseurope's 2007 Annual Statistical Enquiry, new business volumes in Europe reached 339 billion €.

Leaseurope attempts to present an accurate representation of the Ranking figures; however this exercise is not exhaustive as not all European leasing companies participate. While all European leasing firms are invited to take part; participation is on a voluntary basis. The full version of the Ranking is available to Leaseurope members. European leasing firms are invited to contact their local leasing association to obtain a copy. A list of Leaseurope member associations can be found on the Leaseurope website at [www.leaseurope.org](http://www.leaseurope.org) under Membership.

### About Leaseurope

As a Federation, Leaseurope brings together associations throughout Europe that represent either the leasing, long term and/or short term automotive rental industries. The scope of products covered by Leaseurope's members ranges from hire purchase and finance leases to operating leases of all asset types (automotive, equipment and real estate) and also includes the rental of cars, vans and trucks. The firms represented through Leaseurope's members contributed to financing over 21% of European investment. Moreover, these firms are responsible for the leasing and rental of around 17 million vehicles throughout Europe.
