

The Voice of Leasing and Automotive Rental in Europe

Ranking of Top European Leasing Companies

2017

PRESS RELEASE

FOR IMMEDIATE RELEASE

17th Ranking of Top European Leasing Companies released

Brussels, 3 July 2018 – Leaseurope is pleased to announce the release of its 17th consecutive Ranking of Top European Leasing Companies. The purpose of the Ranking is to provide a yearly update on new leasing volumes and portfolios of the largest leasing firms in Europe.

These companies are located in 20 different countries including both EU and non-EU Member States. The firms are members of the 44 Member Associations represented by Leaseurope which in turn represent over 1 500 leasing companies accounting for approximately 94% of the entire European leasing market.

This year, 72 companies participated in this exercise. Of these firms, 64 are parent or standalone companies (bank related, captive or independent leasing companies) and 8 are classified as subsidiaries. These firms are ranked according to the value of their new contracts in 2017. The figures are shown in the attached tables, on a consolidated basis covering the parent and standalone companies only.

These parent and standalone companies reported new leasing volumes of about €156 billion, with 34 companies reporting volumes of over €1 billion. The average contract size (for all asset types considered together) was €36 200 in 2017.

Leaseurope attempts to present an accurate representation of the Ranking figures. However, this exercise is not exhaustive as, while all European leasing firms are invited to take part in the survey, participation is on a voluntary basis. The full version of the Ranking is available to Leaseurope members and participating leasing firms only.

About Leaseurope

As a Federation, Leaseurope brings together 44 associations throughout Europe representing either the leasing, long term and/or short term automotive rental industries. The scope of products covered by Leaseurope's members ranges from hire purchase and finance leases to operating leases of all asset types (automotive, equipment and real estate) and also includes the rental of cars, vans and trucks. It is estimated that Leaseurope represents approximately 94% of the European leasing market.
