

FOR IMMEDIATE RELEASE

Leaseurope releases its 10th Ranking of Top European Leasing Companies

Brussels, 20 June 2011 – Leaseurope is pleased to announce the release of its tenth consecutive Ranking of Top European Leasing Companies. The purpose of the Ranking is to provide a yearly update on new leasing volumes and portfolios of the largest leasing firms in Europe.

These companies are located in 25 different countries including both EU and non-EU member states. The firms are members of the 46 member associations represented by Leaseurope which in turn represent over 1 300 leasing companies accounting for approximately 93% of the entire European leasing market in 2010.

This year, 99 companies participated in this exercise. Of these firms, 70 are parent or stand alone companies (bank related, captive or independent leasing companies) and 29 are classified as subsidiaries. These firms are ranked according to the value of their new contracts in 2010. The figures are shown in the attached tables, on a consolidated basis covering the parent and stand alone companies only.

Parent and stand alone companies in the Ranking Survey reported new leasing volumes of over 137 billion €, with an average contract size (all asset types considered together) of 36 138€. The total volumes reported in the survey represent 61% of all leasing business written in Europe¹ in 2010. The top 20 parent and stand alone companies accounted for almost 47% of the total value of new contracts granted in Europe for 2010 and 30 companies reported volumes of over 1 billion €.

Leaseurope attempts to present an accurate representation of the Ranking figures; however this exercise is not exhaustive as, while all European leasing firms are invited to take part in the survey, participation is on a voluntary basis. The full version of the Ranking is available to Leaseurope members and participating leasing firms only.

Coming soon

Leaseurope will shortly release a new statistical publication, the Leaseurope Index. The Leaseurope Index is designed to complement existing Leaseurope products, such as the Annual Statistical Enquiry and the Ranking Survey. The Leaseurope Index is a unique quarterly survey of a sample of European leasing and automotive rental companies. In addition to volumes and portfolios, the survey tracks cost/income, profitability, cost of risk ratios.

The results of the first issue of the Leaseurope Index for Q1 2011 and 2010 will be soon available on Leaseurope's [website](#).

- END -

¹ According to Leaseurope's 2010 Annual Statistical Enquiry, total new business volumes granted in Europe during the year reached 224 billion €.

About Leaseurope

As a Federation, Leaseurope brings together 46 associations throughout Europe representing either the leasing, long term and/or short term automotive rental industries. The scope of products covered by Leaseurope's members ranges from hire purchase and finance leases to operating leases of all asset types (automotive, equipment and real estate) and also includes the rental of cars, vans and trucks. It is estimated that Leaseurope represents approximately 93% of the European leasing market.
