

### FOR IMMEDIATE RELEASE

#### E-Commerce Solutions Provider for the Automotive Sector epyx Joins Leaseurope

---

**Brussels, 9 September 2018** – Leaseurope, the trade body representing the leasing and automotive rental industry in Europe, is proud to announce that epyx has joined the organisation as its latest associate member.

epyx specialises in e-commerce solutions for the automotive sector. Its best-known products are the 1link platforms – including 1link Service Network, 1link Disposal Network, 1link Vehicle Network and 1link Hire Network - which improve the efficiency of major fleets and their suppliers, covering functions including vehicle procurement, maintenance, hire, disposal and relicensing. They have been adopted by fleets totalling more than four million vehicles, around 18,000 service providers, and nearly all motor manufacturers on behalf of their franchise networks. Headquartered in Warwickshire, England, epyx is owned by FLEETCOR Technologies and operates in countries including France, Portugal, Australia and Republic of Ireland.

Aditya Varapande, Managing Director at epyx, said: “We work with vehicle leasing companies that together operate more than four million vehicles, so joining Leaseurope is a natural step for us. As a business, we have a strong presence in the UK as well as France, Portugal, Australia and have just moved into Ireland and plan to extend our footprint further in the next couple of years. We look forward to working with Leaseurope and its members to share expertise and best practice to the benefit of all parties.”

Leaseurope’s Director of Automotive Affairs, Richard Knubben, said: “With the coming on board of epyx, we are consolidating an already strong and committed group of service providers to the industry. I am convinced that the expertise of epyx will add tremendous value to our members and Leaseurope.”

#### Notes to editors

##### About Leaseurope

As a Federation, Leaseurope brings together 45 associations throughout Europe representing either the leasing, long term and/or short term automotive rental industries. The scope of products covered by Leaseurope’s members ranges from hire purchase and finance leases to operating leases of all asset types (automotive, equipment and real estate) and also includes the rental of cars, vans and trucks. It is estimated that Leaseurope represents approximately 94% of the European leasing market. Find out more at [www.leaseurope.org](http://www.leaseurope.org).
