Ranking of Top European Leasing Companies

2013

Leaseurope releases its 13th Ranking of Top European Leasing Companies

Leaseurope is pleased to announce the release of its thirteenth consecutive Ranking of Top European Leasing Companies. The purpose of the Ranking is to provide a yearly update on new leasing volumes and portfolios of the largest leasing firms in Europe.

These companies are located in 24 different countries including both EU and non-EU member states. The firms are members of the 44 member associations represented by Leaseurope which in turn represent over 1 300 leasing companies accounting for approximately 92% of the entire European leasing market in 2013.

This year, 79 companies participated in this exercise. Of these firms, 62 are parent or stand-alone companies (bank related, captive or independent leasing companies) and 17 are classified as subsidiaries. These firms are ranked according to the value of their new contracts in 2013. The figures are shown in the attached tables, on a consolidated basis covering the parent and stand-alone companies only.

Parent and stand-alone companies in the Ranking Survey reported new leasing volumes of more than €130 billion, with an average contract size (all asset types considered together) of €35 678. The total volumes reported in the survey represent 52% of all leasing business written in Europe in 2013.¹ The top 20 parent and stand-alone companies accounted for just over 42% of the total value of new contracts granted in Europe for 2013 and 27 companies reported new volumes of over €1 billion.

Leaseurope attempts to present an accurate representation of the Ranking figures. However, this exercise is not exhaustive as, while all European leasing firms are invited to take part in the survey, participation is on a voluntary basis. The full version of the Ranking is available to Leaseurope members and participating leasing firms only.

¹ According to Leaseurope's 2013 Annual Statistical Enquiry, total new business volumes granted in Europe during the year reached €252 billion.
