### Notes

Data shown here are those contributed to Leaseurope in the context of the 2007 Annual Survey. Data were provided in local currency. The exchange rates used are yearly average rates taken from Eurostat and can be found in table 6. Similarly, the data for 2006 shown here are those provided by Leaseurope's member associations in the 2006 annual enquiry except when changes in membership or major data modifications warranted the restating of figures for 2006.

Changes to data collection by the Swedish Association may imply that outstanding figures for 2006 are not comparable with those shown for 2007

Figures for the Belgian Association Renta in 2007 do not take into account truck leasing figures whereas these were reflected in 2006
